Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5, 6, 8, 10, 11, 16, 17, 19, 21 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by US 2001/0017819.

The reference discloses a CD-ROM comprising a substrate having a silver reflective layer thereon. See [0026]. The medium has a protective layer formed of a UV-curable composition including a radical polymerizable compound (components A and B), a photo-initiator (component C), and a component D which includes a polymerization inhibitor that is butyl catechol or butyl hydroquinone. See [0038].

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2, 14 and 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over US 2001/0017819.

The reference discloses the medium as described in the above rejection. It is recognized that the reference does not specify a DVD as claimed in claim 2. However, it is well-known to

manufacture DVD's which comprise two substrates having a recording layer thereon adhered together. Therefore, it would have been obvious to one of ordinary skill in the art to manufacture the '819 CD in DVD format. One would expect to obtain the increased recording capacity.

Second, the reference does not specify the amount of the polymerization inhibitor added to the protective material. However, the reference does include guidelines for the addition of component D (the surfactant) in the Examples. The addition of Component D in amounts of 0.1 to 0.5 wt. % falls within the claimed range.

Allowable Subject Matter

Claims 3, 4, 7, 9, 12, 13, 15, 18, 20, 23, and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
